Test corrections

x1/17 $m \angle QUR = 120.9$ For this problem I did not remember how to do this problem so I got it wrong

x1/8 $m \angle PQR = 136.4$ Since I got the first one wrong it led me to get the rest of these wrong

x1/9 $m \angle STQ = 195.5$ Along with this one I got all of these ones wrong

x1/20 $m \angle RST = 59.1$

x1/21 $m \angle TPA = 164.5$

x1/22 $m \angle RQT = 300.9$

x1/17 $x = 4$ $y = 6$ I forgot how to do this as well.

x1/22 $x = 4$ I didn't do the problem because I didn't want to
